

LAVC WIRELESS NETWORK

Recommended Hardware

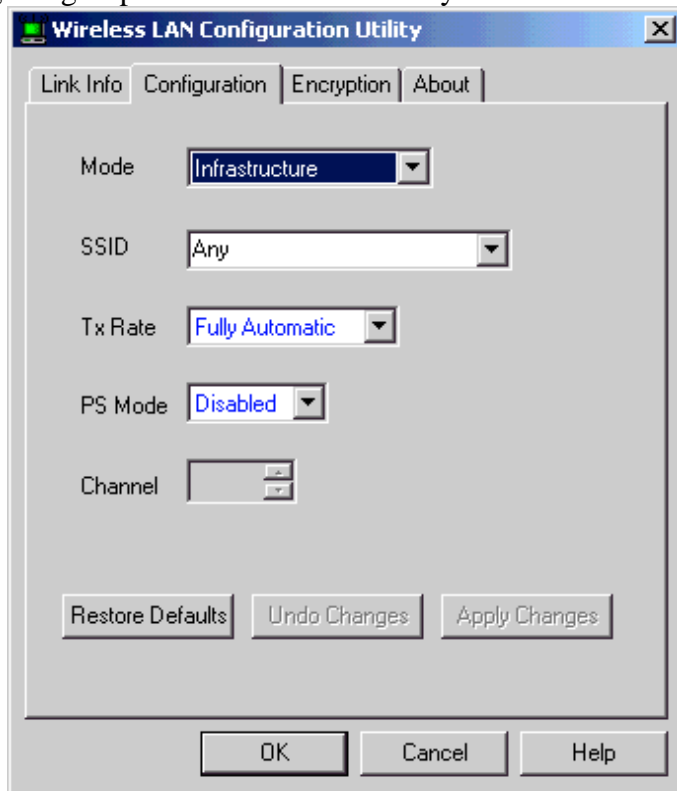

- A wireless card that supports the IEEE 802.11 protocol. The LAVC book store sells some wireless pc cards.
- LAVC does not provide technical support.

Wireless access is only available in the locations marked with the Hot Spot logo.

**The following is provided as a sample only.
Each card has its own configuration procedures.**

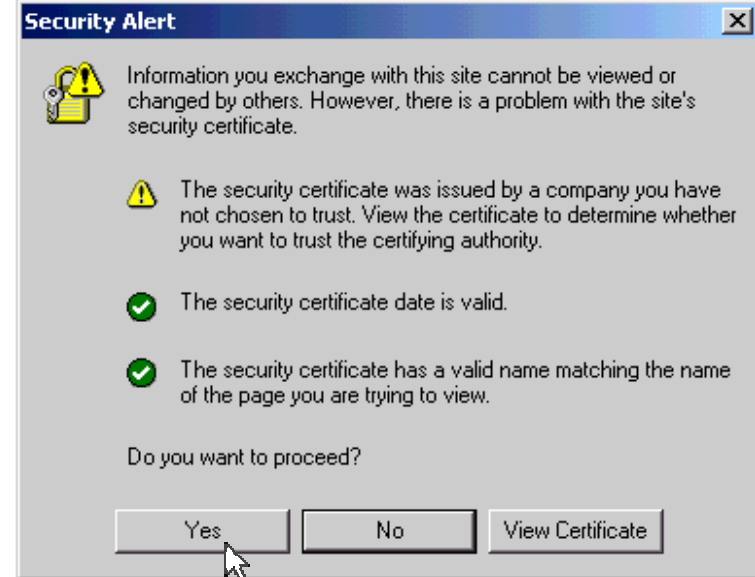

Wireless Connection Setup

- Install your wireless card as indicated on the card manual.
- To configure the wireless card, use your Wireless Configuration Utility. This utility might have other names depending on the brand name and model of your PC card. It is usually found in Start Menu - > Program group. For more details read your manual.

Accessing the LAVC Wireless Network

- Open Internet Explorer.
- Type any Web site address. Press Enter or click Go.
- Accept the security certificate. Click Yes.

Log On to Wireless Network

Log on using your UIA username and password
